PROFILE

Mechanical Engineering undergraduate with interests in Design and R&D. Skilled in CATIA V5, Fusion 360, ANSYS, and AutoCAD. Completed industrial and research internships, including research work at IIT Indore leading to the preparation of research papers. Former member of BUILD Club (IIT Madras collaboration).

TECHNICAL SKILLS

CAD & Design: CATIA V5, Fusion 360, AutoCAD

Simulation: ANSYS

Programming & Data Analysis: Python, Machine Learning

Productivity Tools: MS Excel, MS Word

EDUCATION

Vishnu Institute of Technology, Bhimavaram

CGPA: 8.11

Bachelor of Technology in Mechanical Engineering

Sri Chaitanya Junior College, Kakinada

75%

Sri Chaitanya Techno School, Kakinada

97.5%

INTERNSHIPS

Indian Institute of Technology Indore (IIT Indore)

Research Intern | 2 Months

- Contributed to research leading to the preparation of research papers for publication.
- Assisted in experimental analysis, data interpretation, and technical documentation.

Brakes India Pvt. Ltd., Chennai

Intern | 1 Month

- Worked on manufacturing, assembly, and quality inspection of Tandem Master Cylinders and Brake Boosters.
- Operated robotic visual inspection systems and managed barcode traceability.

ACE Inotec Manufacturing Pvt. Ltd., Bengaluru

Quality Intern | 1 Month

- Conducted sample inspections using precision gauges and maintained gauge history records.
- Gained exposure to GD&T interpretation and engineering drawing reading.

TVS Motor Company, Hosur

Industrial Intern | 3 Days

- Observed assembly line operations and quality inspection practices.
- Learned production planning, lean manufacturing, and safety practices.

PROJECTS

Machine Learning Model for Electrospinning Process Optimization

- Developed machine learning models to predict PVDF fiber diameter using electrospinning process parameters.
- Performed data preprocessing, feature engineering, model evaluation, and cross-validation to optimize prediction.

3D-Printed Artificial Bone Scaffold

- Designed and fabricated porous scaffold structures using CAD tools and additive manufacturing.
- Applied lightweight design and geometry optimization principles.

Drone Component Design using CATIA & 3D Printing

- Designed a drone component in CATIA V5 and fabricated a prototype using 3D printing.
- Followed the complete design-to-manufacturing workflow.

Gauge History & Inspection System

- Developed a gauge tracking workflow to improve calibration monitoring and inspection traceability.
- Enhanced inspection record management and quality assurance practices.

ACHIEVEMENTS & CERTIFICATIONS

- Submitted three research papers for publication based on work carried out during an internship at IIT Indore.
- Secured Top 30 All-India Rank in KBR (Kriya), a national-level competition.
- CATIA V5 Certification – Great Learning Academy.
- AutoCAD Fundamentals Certification – Aylin Technologies Pvt. Ltd.
